

TRAVIS PRIDGEN

Jacksonville, FL 32216

(352) 874-5689 | travispridgen352@gmail.com

Human Capital professional with 7+ years combining federal HR advisory and program management work at NASA Office of the Chief Human Capital Officer (OCHCO) with private-sector portfolio management and process improvement. Authored the OPM vs. NASA Competency Adoption Analysis cataloging 27 OPM competencies against NASA's 22, with framework gap recommendation adopted by leadership and 10 alignment reports re-evaluated against the expanded model. Designed a three-layer ECQ-to-competency traceability methodology applied across 10 Supervisor Development programs. Developed the OCHCO Communications Strategy and Partnership Proposal currently under Communications Team review. Provide program management support across an 89-offering L&D portfolio serving 6,500+ participants with 100% on-time delivery. Project Management Professional (PMP) certified; Lean Six Sigma Green Belt.

PROFESSIONAL EXPERIENCE

BRYCETECH, INC. (Contracted to NASA OCHCO)

February 2025 - Present

Human Capital Program Support Specialist | Remote | 40 hours/week

- Designed a three-layer traceability methodology linking 22 NASA Supervisor Core Competencies to 9 Leadership Expectations and 5 Office of Personnel Management (OPM) Executive Core Qualifications (ECQ), with primary-only mapping rules and distribution checksums; produced an OPM vs. NASA Competency Adoption Analysis cataloging 27 OPM competencies against NASA's 22 and identifying a prior framework gap (Integrity/Honesty), with the recommendation adopted and all 10 existing alignment reports re-evaluated against the expanded model.
- Produced 10 leadership-grade ECQ/Competency Alignment Reports covering the full Supervisor Development program set (HR 101, HR 201, SILP, ASCEND, GROW, Leading Change, and 4 others), each with executive summary, competency tables, and 3-layer traceability; identified portfolio-level coverage patterns (ECQ 1 unaddressed as primary, ECQ 2 secondary-only, ECQ 5 concentrated across 6 of 10 courses) to inform future program design decisions.
- Provide program management support across an OCHCO Enterprise L&D portfolio that grew from 30+ to 89 offerings in 8 months, serving 6,500+ participants across three Learning Management Systems (LMS) (SATERN, IMS, Leadercast 365) and the MentorcliQ mentoring platform, with 100% on-time delivery maintained every month from May 2025 through February 2026.
- Developed the OCHCO L&D Communications Strategy and Partnership Proposal (under Communications Team review) and authored the FY26-Q3 OCHCO Newsletter with an expanded audience strategy reaching Organizational Effectiveness consultants and HRBPs; built NASA Leadership Competency Model visualizations (ECQ, Leadership Expectations, and Core Competencies) that the NASA graphics department is preparing for agency-wide distribution.
- Self-initiated a post-delivery evaluation framework that evolved from a 7-section Lessons Learned template (2 reports produced) into a 12-section Program Implementation Effectiveness Assessment (PIEA) adding financial analysis, cost benchmarking, survey discrepancy analysis, demand assessment, and leadership decision options; first production run (Critical and Analytical Thinking Skills, March 2026) was reviewed and format-approved by the L&D Manager as a viable standard for portfolio-wide post-delivery reporting, with cross-period cost-per-completion analysis detailing vendor pricing trends that inform procurement decision-making.
- Absorbed portfolio responsibilities of three team members departing through the Deferred Resignation Program with no service interruption; administered concurrent Change Style Indicator (CSI) assessment batches for senior leadership offsites (Gateway and Langley), receiving unsolicited agency-level recognition from Langley Research Center leadership (forwarded Organizational Effectiveness Community-wide).
- Facilitated NASA-internal leadership programs HR 101 (3-day, 500 seats, 80% attendance) and HR 201 for Supervisors (March 2026) in partnership with the program lead; scope spanned pre-delivery SME coordination, master deck construction, attendance capture, Q&A moderation, and SATERN roster submission to NSSC; provided operational program support for vendor-facilitated offerings including NELP (37 of 40 participants achieved full credit), SILP, and EM 360 Certification and Refresher; independently delivered two recurring L&D presentations: "L&D Employee and Leadership Development" (HR 101 and HR 201) and "L&D Resources" (NELP).
- Consolidated 5 fragmented tracking systems (L&D Offerings deck, SATERN Exec Dev Courses, Skills Matrix, L&D Team Calendar, TSD Weekly Report) into a unified L&D Program Offerings Tracker; drafted the HR 101/HR 201 & NELP Standard Operating Procedure for institutional knowledge capture; administer SATERN enrollments (5-20 daily requests), weekly Leadercast 365 reporting, and MentorcliQ intake for NASA's AMPED Mentoring program.

BRYCETECH, INC. (Contracted to NASA OCHCO)

February 2025 - Present

Human Capital Program Support Specialist | Remote | 40 hours/week

- Built and piloted custom ChatGSFC AI agents for SOP/DTP development, program management, and presentation design; selected as 1 of 3 OCHCO staff granted Articulate 360 access to convert instructor-led curriculum (HR 101/HR 201) to interactive e-learning; assigned by L&D Team Manager to develop the "Leveraging AI in the Workplace" presentation for the April 2026 NASA OCHCO Face-to-Face event.

FLORIDA BLUE (GuideWell Mutual Holding Corporation)

April 2019 - January 2025

Project Coordinator (Spec IIIb, Business Support) | Sales Operations & Business Transformation | Jacksonville, FL | 40 hours/week

- Led Lean Six Sigma process improvement for the Initiative Submission Process, reducing administrative burden by 2,000+ hours annually and capturing \$96,000+ in hard cost savings.
- Developed strategic business cases for 10+ major initiatives ranging from \$15,000 to \$2.5M, defining scope, financial justification, and stakeholder alignment to secure leadership funding approval.
- Managed the Project Intake Queue and full initiative lifecycle for sales support platforms, processing 4,000+ annual business requests; coordinated portfolio administration for 31 concurrent RSR-led initiatives with KPI and ROI tracking reported to senior leadership and cross-functional stakeholders.
- Designed process workflows in Microsoft Visio, maintained SOPs and Desktop Procedures (DTPs) to ensure CMS compliance, and facilitated continuous improvement training sessions for Sales Operations that translated user feedback into iterative platform enhancements.
